**Pensacola, Fla.** – The Florida Department of Health in Escambia County (FDOH-Escambia) is announcing this week's COVID-19 vaccine distribution plan in Escambia County. Vaccines allocated by the State are being distributed through County Health Departments, which are receiving an allocation based on their county's percentage of Florida's over-65 population.

FDOH-Escambia was notified they would be receiving an allocation of 2,500 doses of the COVID-19 Moderna vaccine for the week of February 22, 2021. This allocation is in addition to the 2,500 doses of delayed vaccine originally planned for distribution for the week of February 15, 2021, totaling 5,000 doses for the week of February 22, 2021. We are coordinating with community partners on distribution efforts.

In partnership with Ascension Sacred Heart, Baptist Health Care, Community Health Northwest Florida, West Florida Hospital and Woodlands Medical Specialists, FDOH-Escambia is distributing vaccine in Escambia County. FDOH-Escambia's total allocation will be distributed accordingly:

- Ascension Sacred Heart: 900 doses
- Baptist Health Care: 900 doses
- Community Health Northwest Florida: 1,600 doses
- FDOH-Escambia: 1,000 doses
- West Florida Hospital: 400 doses
- Woodlands Medical Specialists: 200 doses

Some appointments will be scheduled using the statewide pre-registration system. FDOH-Escambia and partner organizations are in the process of contacting individuals to schedule appointments. Please do not contact the providers directly for these appointments.

The allocations of second dose vaccine for the weeks of February 15 and February 22, 2021 are still in the shipping process. Persons scheduled to receive second dose vaccinations prior to local receipt of second dose supplies will be contacted for a new appointment date and time.

On February 5, 2021, FDOH-Escambia transitioned to the statewide pre-registration system to schedule COVID-19 vaccine appointments. Residents who completed the online interest form were transferred to the new system. Residents who have completed FDOH-Escambia's online interest form do not need to call or email to confirm their registration.

Escambia County residents who have not already completed the online interest form should use the statewide preregistration system to sign up. Residents can call the toll-free line at, 866-201-1025 or preregister online at [myvaccine.fl.gov](https://myvaccine.fl.gov). The TTY number for the deaf and hard of hearing is 833-476-1461. Registrants will be notified when appointments are available in their area. The State has established a help line at 833-959-0217 for those who need to make changes to their original preregistration.

This preregistration system will proactively contact vaccine-eligible individuals to schedule appointments when they are available at health department or emergency management vaccine sites. Appointments are opened based upon the vaccine supply received each week from the State of Florida. It is important to know that the scheduling process will not involve collecting any payment or other financial information. Do not give any bank account, credit card, or any other type of payment to anyone, and report the caller to the Attorney General's Office by calling 866-9NO-SCAM or visiting [MyFloridaLegal.com](https://MyFloridaLegal.com).

The COVID-19 vaccine is a monumental step toward getting this disease under control in Florida, but the department is still encouraging residents and visitors to take all precautions to protect themselves and others from the spread of the virus. These include frequent hand washing, wearing face masks, maintaining six feet of social distancing, and staying home if you are feeling sick.
